**IS IT RHEUMATISM?**

Aren't You Really on the Wrong Track?

A good share of so-called rheumatism is caused by weak kidneys. When the kidneys fail to clear the blood of uric acid, the acid irritates the delicate nerves.

Torturing pains dart through the affected part whenever it is moved. By strengthening the kidneys, Doan's Kidney Pills have proven their worth in thousands of so-called rheumatic cases, lumbago, sciatica, gravel, and urinary disorders. Doan's are well known in Norway and warmly recommended by Norway people. Read this Norway case:

Mrs. F. L. Starbird of South Paris, who formerly lived in rear Beals Hotel, says: "Doan's Kidney Pills have been an old standby with me for years. At times my kidneys don't act as they should or my back aches. I often have blinding dizzy spells and rheumatic trouble when my finger joints seem to swell and are painful. I always use Doan's Kidney Pills at these times and they quickly relieve and cure me of the attack."

**Catarrhal Deafness Cannot Be Cured**

by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing inflammation and restoring normal conditions.

## The Oldest Paint in the Newest Form Dutch Boy Liquid Lead

Liquid Lead is simply the old-fashioned lead-in-oil, ready for use, mixed by the manufacturer of the white-lead instead of by the user. It is white paint and does not come colored, but can be tinted to any desirable color. It has the quality of the best white-lead paint, the convenience of being able to start painting as soon as the can is opened and the satisfaction of using a Dutch Boy product.

### Dutch Boy Flat White

When a flat or semi-gloss finish is desired, as for interior walls and woodwork, use Dutch Boy Flat White. This is also a pure white-lead paint, but is designed to give flat effects, delicate in color, rich in tone, yet durable and washable.

### Dutch Boy Paint is Economical

because of its great spreading capacity, which makes its cost per square foot less than many paints which cost the same per gallon and also because of its great wearing qualities. As it contains only pure materials and weighs over twenty pounds per gallon, it can be thinned and tinted in any manner desired. Call and investigate or send for a descriptive booklet.

### TAXATION AND HIGH COST OF LIVING

There is a deadlock in the coal conference. The operators demand 21 per cent cut in wages and the miners ask 20 per cent rise. The present wage is \$4.20. The mine owners want it reduced to \$3, while the miners desire it boosted to \$5.00. It doesn't look as if the consumer is to derive any benefit in the reduction of the price of coal. The miners are demanding a price they must know they can't get, and the operators are putting it lower than will be accepted. In the end they will agree on a figure of about \$4, and there will be no reduction in the retail price of coal. The consumer had reason to expect an approach at least to normal conditions long ago, but nothing of the kind has happened or is likely to for some time to come. We are curious to know what the office holders will have to say to the people this fall and what reason they have to ask for a continuance of support. What have they done or are doing to bring the country back to normal conditions? Just nothing or worse than nothing. They deserve a rebuke. But perhaps there is too much expected. It is an age of small bone politicians. A round peg cannot well be fitted into a square hole.—Comment.

The greatest foe to the "open shop" is picketing. Why it should ever be allowed, is beyond comprehension. What right has one to interfere with another who wants to work and earn a living for himself and family? None whatever, either in law or justice. If one doesn't want to work for what the farmer, manufacturer or employer can afford to pay, he has the undoubted right to quit and go away where he can procure another job, but he should not be allowed to hang or sneak around and interfere with, and make life uncomfortable for those who are willing to work. The courts cannot be too severe with such sneaks. The Lawrence mills are having much trouble with such replies just now.

It is no wrong to a person to obtain a position he cannot fill with credit to himself and benefit to the public. The ablest and best should always be selected. The primary system is a failure in this regard. A minority selects the candidates and they are frequently incompetents. The system too, is expensive. This should be changed. A return to the old method of holding caucuses for the selection of delegates to conventions, in lawyers' back offices won't do. Caucuses should be held at town halls and kept open through the day and party lists should be posted herein and not privately kept for special service for ringsters.—Comment.

Soon the tax lists will be out. Wonder if Maine towns will show any lowering of the rates over last year. Probably not. If any change they will generally show an increase. Those having axes to grind appear to have been out in full force at the town meetings and pulled wires to get their little schemes voted favorably upon.—Editorial Comment.

No appreciable progress is being made on the tariff bill in the Senate at Washington—too many "blobs." Each wants a tariff to increase the price of commodities it produces. This is in contrast to the original theory as promulgated by Henry Clay and Horace Greeley. It is extremely unlikely that the tariff bill Congress will enact will prove satisfactory to the people.—Editorial Comment.

## Roofing Economy

You buy automobile tires for mileage—and roofing for its lasting qualities.

When you buy a tire you are not governed by the look or "feel" of it, nor by its price. You are interested in the service that it will give you. Your first thought is, "What has it done?"

Apply a little "Tire Philosophy" to the roofing that you expect to make a permanent part of your building.

## RU-BER-OLD ROOFING AND SHINGLES

are made of materials that have passed exhaustive tests. Hundreds of roofs for more than a quarter of a century have borne actual proof of the lasting qualities of Ruberoid Roofing Products.

These products have never been manufactured to "meet a price". They have always been the best products The Ruberoid Co. could manufacture.

The felt base from which Ruberoid Roofing and Shingles are made and the saturant and coating compound were the subjects of long experiment and many tests before they were finally adopted for use.

All processes in the manufacture of Ruberoid Roofing Products are carried on with the greatest care and all compounds are constantly tested to insure absolute uniformity.

#### Plymouth Rock Hens

Nine hundred Plymouth Rock chicks have been hatched out this spring by B. C. Jilson whose farm is located near Otisfield Corner. Two hundred hens of the breed were wintered and Mr. Jilson is planning on keeping more the coming season. Strains bred include the Park, which have been crossed with others. A great laying strain has been developed and the young cockerels are kept and fattened as roasters. Eggs are marketed in Boston.

Besides selling baby chicks and quantities of eggs, Mr. Jilson sent 1 1/2 tons of dressed poultry to Boston last fall. Prices for them varied. One lot brought 64 cents and others various prices down to 40 cents.

Eggs in the fall also brought a good price. From the 200 hens wintered Mr. Jilson states that 154 eggs have been gathered some days. The Orono ration is followed quite closely with good results. Tankage is also fed.

Very few hens are kept over the second year the pullets paying much the best according to the experience of Mr. Jilson.

Regarding the sellings of the young cockerels as broilers he is firmly convinced that there is more money in feeding them until they make roasters. One year Mr. Jilson kept accurate accounts and proved that for every dollar expended in grain for the flock after they reached that stage he made two.

Besides the poultry business in which Mr. Jilson is doing very well he is also a good farmer raising sweet corn for his principal crop. This year he plans on putting in several acres which goes to the Gillson factory in that vicinity. In planting his crop he thoroughly cultivates the land and dresses it heavy. One year he states he received \$270 from an acre. On that piece of land he produced loads of barn dressing and eight hen dressing. The latter being another asset in the poultry business which many do not consider.

### The Wentworth Poultry Fountain

We have recently perfected and are now offering a new fountain or watering system known as THE WENTWORTH POULTRY FOUNTAIN. It has been developed with the idea of lessening the spread of diseases through the drinking of contaminated water. The fountain or main body of water is entirely separate maintained at any predetermined depth in the drinking vessel. It will thus be seen that it is impossible for the main body of water to become contaminated, for it does not come in direct contact with water in the drinking vessel. The object, therefore, of the fountain is to automatically supply fresh pure water as required by the birds.

FIRST—The Drinking Vessel, being separate from the main body of water, may be rinsed or disinfected at will, without interfering with the fountain or main water supply.

SECOND—There are no float valves, air tight caps, or anything of the sort to get out of order. Its construction is simple; its operation is positive and pleasing.

THIRD—It is durable—will last a lifetime, and is inexpensive.

Camp life and actual engagements on field and in trenches can be seen in the screen story. The entertainment was put on by the local American Legion Post and they will receive the proceeds.

A local mechanic can't get the knock out of the doctor's car, and the doctor can't get the rheumatism out of the mechanic's legs, so they are afraid to send bills to each other.

## MEN PROMINENT IN BOY SCOUT WORK MEET AT OXFORD COUNTY SCOUT CAMP, LOCKE'S MILLS

May 28th, thirty-five Boy Scout representatives from various towns in Oxford County met in the interests of Scouting. The meeting was held out of doors at the Oxford County Scout Camp, Locke's Mills. The meeting was marked by great enthusiasm from all sections of the County. Reports from the committees showed that Scouting in Oxford County was well underway on the Rumbold Branch and the Grand Trunk Branch. A Council Report showed that Oxford County Council is the Second Council in size in the State of Maine.

George R. Morton of South Paris and President of the Council called the meeting to order on the spot which will be later marked by canvas tents. The Councilmen seated themselves in mass formation at a point overlooking the whole expanse of Dudley Lake. With this view in the foreground and a pine grove in the rear, they proceeded to formulate plans which will place Scouting in Oxford County at the top notch as an official boys' organization working for citizenship and character building.

The Council laid plans to finish the drive for Boy Scout Funds by June 15. A concerted effort will be made on the financial drive and every indication is that the drive will go across with a good surplus in each local treasury. The public is fast waking up to the value of this organization to the boys of the county and is ready to boost as never before.

The Oxford County Scout Camp will be opened to Boy Scouts of this county on July 24 and will continue in active service during the following four weeks. Each person must bring his own bedding, eating utensils and knickknacks. The price charged places the Camp within reach of all boys. It is too good a chance for any boy to miss and every indication points to several hundred boys in camp during the season.

The camp will have good supervision and all preparations are to be made to safeguard the health of every boy while there. A Camp Sanitation committee formed of Dr. Willard, Bryant, Parsons and Dr. I. H. Wright, Bethel will look after this matter satisfactorily. By official vote of the Council there is to be no smoking on the Camp site by either men or boys during the period of the Scout Camp. All rulings made will be perfectly square and will be enforced to the letter.

## South Paris

(Continued from page 1)

Wilson Lane Richards

Wilson Lane Richards of South Paris passed away at Augusta, May 24, the cause of his death being disease of the heart. Mr. Richards was the son of Samuel and the late Susan (Dearborn) Richards and was born in South Paris, May 24, 1865. He received his education in the South Paris school, after which he learned the watch repairing and jeweler's business of his father, who has been a jeweler and optician for many years. A few years later, Mr. Richards bought out the business of Mr. Lane, a jeweler at Mechanic Falls, and conducted a successful business there until he had an illness which obliged him to give up the work. An accident of a fall injured his spine and resulted in an illness when his back and limbs were paralyzed for some time. The injury to his spine resulted later in mental derangement and treatment at the State Hospital at Augusta became necessary.

Mr. Richards was a skillful mechanic and constructed many of the tools which he used in his business. He was a member of the lodge of Odd Fellows, No. 2, He is survived by his father and two sisters, Flora M. and Myra S. Richards of South Paris. His mother passed away about fifteen years ago. He was kind, generous and an affectionate son and brother.

The remains were brought to South Paris and the funeral was held Saturday afternoon, attended by Rev. H. G. McGlaughlin. The bearers were Stanley and Chas. L. Buck. Burial was in the family lot in Riverside Cemetery.

## Exercises Memorial Day

Memorial Day was observed by Grand K. Kimball post who met at Wm. Kimball hall and formed a line of march at 10 o'clock Tuesday a. m. Captain Guy I. Sweet was marshal of the day.

Followed by Sons of Veterans and members of the American Legion who acted as escort to Wm. Kimball post, G. A. R. and Ladies of the G. A. R. who followed in automobiles. Then came the Scouts, with Earl Clifford, Scout Master, followed by the school children. They marched to the Riverside cemetery where a prayer was offered by Rev. J. L. Wilson. Eight young ladies sang "The Star Spangled Banner." Comrade Franklin Maxim read Logan's order, Robert Wheeler read Lincoln's Gettysburg Address and the young ladies sang, "In God's Keeping." Graves were then decorated and the line of march proceeded to the Soldiers' Monument after which they returned to G. A. R. hall where dinner was served by the Ladies of the G. A. R.

In the evening the Rev. H. G. McGlaughlin gave an illustrated lecture at Deerling Memorial Church on "Abraham Lincoln."

## Congregational Minister Resigns

Rev. J. A. Morris at the morning service on Sunday read his resignation as pastor of the South Paris Congregational Church to take effect September 1st. The Baltimore church is a large and influential church and is the only Congregational church in the city.

Rev. Mr. Morris has built up the South Paris church since commencing his pastorate some months ago. The membership has increased and every department has felt his influence. His non-essentials which are stumbling blocks to practical Christian fraternalism.

## Man and Wife Both Obtained Entire Relief

Maine Woman Declares Tanlac Brought Them Complete Restoration From Stomach Trouble—Had Suffered Twelve Years.

"When a person has suffered twelve years and then finds a medicine that restores her health, it's enough to make her rejoice and want to tell others about it," declared Mrs. Josephine Roberts of Poland Springs, Maine.

"I just hate to think of all the suffering I went through. I had chronic indigestion and at times had dreadful pains in my stomach that I could hardly bear and I would simply faint. My appetite was extremely poor and I ate scarcely a thing. I would bloat up awfully and feel as if I was smothering. There was a terrible hurting in my left side and if I dared bend over the pain was almost unbearable."

"Tanlac had helped my husband so much that I started on it, too, and it has built me up wonderfully, in fact, it has been many years since I was in such perfect health. I recommend Tanlac with all my heart."

## LOWERING YOUR STANDARDS

Do you know that familiarity with inferiority will tend to make you inferior?

It will lower your standards without your realizing it, and deterioration will soon result. We vibrate to our associations; we tend to harmonize with our environment, with the people with whom we associate. If we mingle with inferiority, familiarize ourselves with it, before we realize it, we are vibrating to inferiority; our standards are deteriorating; our ideals dropping.

It is a curious fact that men, as a rule, are incapable of detecting and appreciating their falling standards unless they are very marked or pronounced. There is nothing so insidious in our experience as deterioration. The moment we begin to let up in our aspirations, in our persistent, determined effort to keep up to the mark in every possible way, to keep our ambition from sagging, our ideals from becoming dim, deterioration sets in. We must keep our standards up at all times, no matter how great is the temptation to let them drop.

Only two of those whose names appear are now living in town, Comrades Everett and C. H. George, who is nearly eighty-seven years of age, and is wonderfully active for a man of his age. The Corps attended church in a body Sunday morning and listened to an appropriate sermon by Rev. A. E. Kingsley.

Memorial Day exercises were held at the church Tuesday forenoon, address by Prof. Frederick Pottle of Durham, N. H.

You can't see yourself getting old, but young folks can.

## BATES—WEST PARIS

This was a considerably lively place the first of the week with the Finnish Congregational Conference of New England for three days, with a district meeting at L. O. O. F. lodge Saturday evening and Memorial Sunday mixed in, closing with the quiet exercises of the National Holiday Tuesday, May 30th.

The Finnish Congregational Conference began Saturday evening and held until Tuesday noon. Sunday afternoon services were held on the front lawn of Lauri Immonen's, the usual Conference Concert was held in the Grange Hall Monday evening and all the other services were held in the Finnish Church. There 11 ministers were present including three Americans as follows:

Rev. Alex. Raita, Newport, N. H.  
Rev. E. E. Enrich, D. D. Boston, Mass.  
Rev. A. Raita, Portland, Me.  
Rev. E. Hamalainen, Worcester, Mass.  
Rev. P. Miettinen, Thomaston, Me.  
Rev. V. Sundelin, Quincy, Mass.  
Rev. J. Vananen, Maynard, Mass.  
Rev. A. F. Vieta, Gardiner, Me.  
Rev. A. Groop, Fitchburg, Mass.  
Rev. A. Kukko, Hubbardston, Mass.  
Rev. C. Harbitt, Portland, Me.  
Rev. J. J. Walker, New York City.

There were about 90 delegates here from other states and about 20 from other parts of this state. A chorus choir of 30 young people from Fitchburg, Mass. came in two big auto trucks and about 20 from Quincy, Mass. There were also a few from Ohio. The music was very fine. The concert Monday evening which was on a religious order was composed of vocal solos, duets and chorus pieces accompanied by piano and various instrument, also there were piano and cornet solos, violin duets and violin and cello duet. Other instruments used were mandolins. The Grange Hall was full to its utmost and some estimated that there were as many more outside listening. Various homes were opened to help lodge the delegates. The language used was mostly Finnish although most of them could also speak English and gave many explanations to the Americans who might be present.

Memorial Services in Grange Hall Sunday at 3 p. m. were well attended. Rev. H. P. Aldrich delivered the annual sermon. There were chorus choir, mixed and male quartets, selections and solos by Arthur Welcome of Waltham, Mass., and sub-master Barker of the Bryant's Pond High School, which were greatly enjoyed. An auto load of veterans from South Paris were present and with our greatly appreciated the old war song, "Tenting on the Old Camp Ground," sung by the male quartette, Welcome, Barker, Davis and Brock.

Mr. and Mrs. Rollin Dinsmore went to Kears Lake Memorial Day and brought home a 7 1/2 lb. salmon which they caught there. They caught other smaller ones.

Mrs. Herbert Hill is visiting relatives in Portland for a few days.

Mr. and Mrs. I. L. Bowker of Magalloway are visiting her parents, Mr. and Mrs. E. D. Stilwell.

Scouts Prominent Memorial Day  
Troop No. 1, of West Paris was featured in the Memorial Parade held at 10 A. M. by having 27 Scouts and Scoutmaster leading the parade to the cemetery. The Scouts decorated the graves of the veterans in usual form and after a short program of exercises, marched back to the village.

At this point a new wrinkle in the annuals of the troop took place. The full troop marched onward to the center of the village, formed in single file across Main Street, faced the flag and in full salute gave the pledge of Allegiance to the Flag. This seemed a fitting ending to the occasion, as the final aim of all Scouting is good citizenship which is nobly represented by the U. S. Flag.

The West Paris troop is but one of the numerous troops of Boy Scouts in Oxford County who took part in the various Memorial Parades. The West Paris record may not be the best but it is a very creditable showing to have 27 out of a troop of 32 members with two of the members out of town.

At mid-day the troop went over to Swimming Hole for recreation and sport. In the evening, eighteen of the troop went up to a point overlooking the town, built a Council fire and camped under the stars over night.

Fore Street

Many birthday card greetings were received also gifts of flowers, etc., the refreshments were served by the young ladies of the Circle. Seventy were present.  
H. J. Llewellyn of Portland recently visited at W. Twitchell's.

## Spring Medicine

Now Needed by Nearly Every One to Purify the Blood and Build Up Strength.

Few come to these trying spring days without weariness, debility, that "tired feeling," caused in large part by impure, de-vitalized blood. Change of season often "takes all the strength out of me," as many people say.

The tonic and blood purifier needed is Hood's Sarsaparilla. It

quickly dispels that exhausted feeling, enriches the blood and benefits the mental, muscular and nervous systems. In a word, says a druggist, "Hood's Sarsaparilla is our most dependable restorative." Only the best tonic and purifying ingredients used—roots, herbs, barks and berries, such as physicians often prescribe. A record of 46 years successful use. It will do you good. Try it this spring.

A mild laxative, Hood's Pills.

"ALL FOR ONE, ONE FOR ALL"

In this production "Doug" has achieved the ambition of his life—and registers with it, what is by all odds the great, outstanding success of his career.

His is a remarkable, clear-cut portrayal of the noble D'Artagnan, the wonderful hero of Dumas' amazing novel of Mediaeval France.

This tremendous film is the happy culmination of a desire of years on Fairbanks' part to enact what is conceded to be the most striking and heroic figure in the entire history of literature.

## YOUNG MOTHER NOW STRONG

Her Mother's Faith in Lydia E. Pinkham's Vegetable Compound Led Her To Try It

Kenosha, Wisconsin.—"I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound. My mother had great faith in it as she had taken so much of it and when I had trouble after my baby was born she gave it to me. It helped me so much more than anything else had done that I advise all women with female trouble to give it a fair trial and I am sure they will feel as I do about it.—Mrs. FRED P. HANSEN, 562 Symonds St., Kenosha, Wisconsin.

A medicine that has been in use nearly fifty years and that receives the praise and commendation of mothers and grandmothers is worth your consideration.

If you are suffering from troubles that sometimes follow child-birth bear in mind that Lydia E. Pinkham's Vegetable Compound is a woman's medicine. It is especially adapted to correct such troubles.

The letters we publish ought to convince you; ask some of your women friends or neighbors—they know its worth. You will, too, if you give it a fair trial.

Don't Neglect It

The True Family Laxative

# Dr. True's Elixir

Mothers with their home worries are often irregular at meals—have no appetite—are often restless at night—are tired and are troubled with distressed stomachs—need a prompt, pure herb laxative, and such is Dr. True's Elixir, the True Family Laxative. The working man is apt to neglect his health; may eat too hurriedly and at irregular hours. Often this puts the bowels out of order—they fail to function properly—causing fretfulness, taking away the appetite, slowing down the active mind. To relieve these conditions, have a bottle of Dr. True's Elixir handy.

Use it as others have done

during the past 70 years.

When the children are out of sight they often eat too many sweets or rich food. This brings on constipation in many cases.

Watch these symptoms: Constipation, sour stomach, cramps, eyes heavy and dull, bad breath, restlessness and biliousness. These are common to both children and grown-ups and call for prompt use of a laxative.

To properly cleanse and purify the intestinal tract which is essential to good health; to ward off and relieve constipation and its attending evils use the True Family Laxative, Dr. True's Elixir. 40¢, 60¢, \$1.20.
